

# ***We, Together***

---

April 26 - June 7, 2014

Favorite Goods is excited to announce the opening of *We, Together* an exhibition featuring the work of three synergetic entities: Body by Body, Club Paint, and John Connor.

Presented as a trilogy, beginning with *Screening IV*, which provided a glimpse at collaboratively made videos from 1975 to present by Ant Farm, Bernadette Corporation, Paper Rad, Yemenwed and Dora Budor - this exhibition continues to research works created by not a single artist, but multiple. These groups, more like a band than a collective, represent three different relationship models. As if it were a play, Body by Body star as the "lovers", Club Paint play the "mentor and his students", and John Connor are the "friends". While their methods, desires, and the nature of these relationships vary greatly, the end result coincides with a singular vision and unique language.

Body by Body is Melissa Sachs and Cameron Soren.

Club Paint is Keith Boadwee, Isaac Gray, Erin Allen.

John Connor is Sayre Gomez and JPW3.

The final part of the trilogy, a publication featuring interviews, writings, and images from the artists will be released in conjunction with Golden Spike Press at the end of this exhibition.
